

Acumatica PowerSign

Unlock a new level of efficiency and customer satisfaction by harnessing the power of PowerSign. Our innovative solution seamlessly bridges an eSignature platform (SignNow) and Acumatica, making the approval process for your Quotes, SOWs, and any other document smoother and more convenient than ever.

Don't miss out on the opportunity to optimize your approval workflow and elevate your business operations.

Key Features for a Streamlined Experience

- **Automated Signature Box Recognition:** PowerSign intelligently identifies signature placeholders within your Microsoft Word document generated by Acumatica, simplifying the process of obtaining approvals.
- **All in on place:** Forget the hassle of logging into SignNow for sending invitations, it's all handled seamlessly in Acumatica.
- **Real-time Document Tracking:** Keep a watchful eye on your documents during the approval pipeline in Acumatica.
- **Error Reduction:** By automating the approval process, PowerSign significantly reduces the likelihood of errors or omissions. Maintain impeccable accuracy and compliance with every document.

Transform Your Workflow

- **Accelerated Approval Process:** Streamline the approval of your documents and expedite the signing-off process. Watch as your documents move swiftly through the approval cycle, reducing delays and saving you valuable time.
- **Enhanced Customer Satisfaction:** Take a step toward a more efficient, error-free, and customer-centric document approval process. PowerSign ensures that your documents are signed off faster, leaving both your team and your clients delighted with the experience.
- **Connect with other eSignature systems:** Integrate with various eSignature platforms such as DocuSign, PandaDoc, and more.
