Empowering Acumatica with Custom Code

Acumatica Point of Sale Powered by Heuristyc

The only Acumatica native POS solution on the market, Acumatica Point of Sale, is designed for wholesale distributors and manufacturers that want a simple system to manage all sales transactions, including counter sales. Manage point-of-sale transactions from a single order screen with real-time inventory and cash register reconciliation reporting. Easily integrate POS hardware and credit card terminals for automated point-of-sale processing.

All-in-One Acumatica Workspace

All-in-One Retail Business System

Acumatica Cloud ERP with Acumatica Point of Sale is a comprehensive over-the-counter business system for financials, CRM, tax management, complete order management, inventory management, and reporting.

Conduct Sales and Returns Together

Generate and process sales with returns on the same order.

Omni-channel Sales Made Easy

Use point-of-sale in tandem with Acumatica Cloud ERP for true omnichannel sales. Buy in-store and return online, or sell through back-office sales orders and process exchanges online.

Cash Reconciliation

Simplify cash drawer reconciliation with X & Z reports, along with register receipts.

Expedited Deliveries

Process special orders for items ordered in the store that are drop-shipped to customers.

Deploy and manage Acumatica Point of Sale across geographically dispersed store locations with connectivity anytime, anywhere, on any device.
